

The IVO corpus contains the following files (explore the individual ELAN files to locate the correct file, corresponding to the 'partner code and number' information).

The 'IVO core meetings corpus' comprises meetings 1-15. They include 15 recordings from four different institutional contexts, ranging from municipal council meetings (DCC), a non-governmental organisation promoting arts (NCoL), an academic conference organising committee (TaLC) and a state-of-the-art software development company (GitLab). Some of these meetings are hybrid (i.e. some participants are in the same location). The meetings are agenda-driven and can be defined as workplace interaction. There are four remaining meetings (16-19) which are more representative of interviews, training sessions or presentations than meetings and so are not included in the IVO core meetings corpus.
